

COVID-19 - preparations

CIREC Conference 2021 will definitely take place

Plan A - In-person event in Geneva

- We will work with [Palexpo](#) to ensure strict safety measures are in place, likely to include:
- Social distancing, one-way systems for footfall through venue, hand sanitiser stations, masks in public spaces, pre-packaged food etc

Plan B - A hybrid or fully virtual event

- We are starting to develop these plans now so that we are ready to pivot quickly to a virtual model if necessary.
- IET already has the virtual platforms and skilled staff team in place to deliver complex, multi stream virtual events.
- We are working with the venue on a time frame for making this decision. Exhibitors, sponsors and delegates will need to know before any financial outlay is incurred.
