

Best Young Academic Paper Awards

SO_1

Ref.br.10784

Silicon Carbide Enabled Medium Voltage DC Transmission Systems for Rapid Electric Vehicle Charging in the UK

SO_2

Ref.br.10618

Impact of Reserve Market Participation on Power Quality of Flexibility Resources and Local Electricity Networks

SO_3

Ref.br.10338

Using Local Renewable Energy To Energize a Portion of a LV Grid in Islanded Mode

SO_4

Ref.br.10166

Analysis of Control Algorithms on Different Low-Voltage Grid Clusters

SO_5

Ref.br.10636

Network Reconfiguration Under a Stochastic Optimisation Framework for Day-Ahead Operation Planning for Future Distribution Networks

SO_6

Ref.br.10497

Vehicle-to-Home or Battery Energy Storage Systems – A Comparison of the Potential Usage in Smart Homes
